

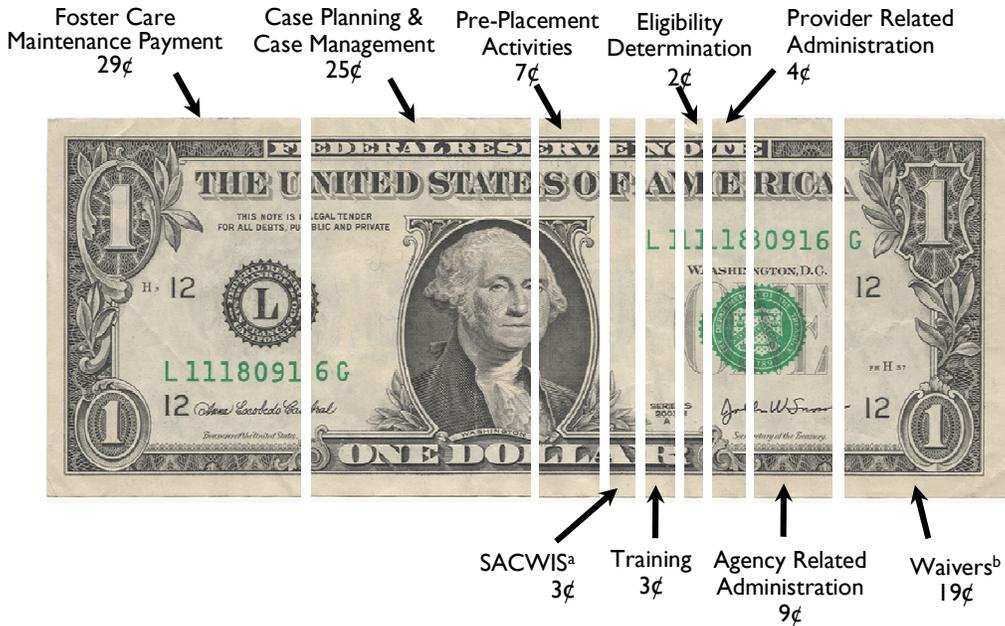

**FIGURE 11-I. WHAT DOES THE TITLE IV-E FOSTER CARE DOLLAR BUY?**

Total FY2011 claims: \$8.329 billion, including \$4.340 billion – federal share and \$3.987 billion – state share

**Source:** Figure prepared by the Congressional Research Service on September 19, 2012 for the 2012 version of the House Ways and Means Committee Green Book and based on Title IV-E foster care expenditure claims submitted by states for FY2011 (as of May 2012) and compiled by the HHS, ACF, OLAB.

**Note:** Sum of parts totals to more than \$1.00 due to rounding.

a. SACWIS stands for Statewide Automated Child Welfare Information System.

b. Waiver funds are those spent under an approved child welfare demonstration project. They may be spent on any of the regular Title IV-E foster care activities as well as for other waiver-approved purposes not otherwise permitted under Title IV-E. During FY2011, the state of Florida and the California counties of Los Angeles and Alameda received nearly all of their Title IV-E foster care funding under waivers and they spent the very large majority of all waiver funds shown in this figure.
